29th January, 2014

Dear Alex,

The Ethiopian Wildlife Conservation Authority (EWCA) would like to express its sincere thanks to Stop Ivory for the support you gave us during the recent ivory stockpile inventory (16th – 22nd December 2013). The contributions of Stop Ivory were invaluable in making the ivory stockpile inventory such a success.

As you will be aware, the conservation of elephants, both in Ethiopia and across the African continent, is a high priority for Ethiopia, and we are pleased to have been able to complete this important exercise.

I would also like to thank you for the Stop Ivory Inventory Report and data, which EWCA management are currently reviewing. We will be submitting this report to CITES in due course.

EWCA looks forward to continued collaboration with Stop Ivory, and are committed towards achieving the goals outlined within our MoU. We understand that Stop Ivory is similarly committed to achieving its contributions towards this process, for which we are extremely thankful.

Best wishes,

Dawid Mume Ali
Director General
